

CASE STUDY

Mortimer Society Care Home see financial benefits and improved accuracy with Kelio's Time and Attendance system!

Commentary by Melanie Turner, HR Manager of Mortimer Society

As a small charity running two care homes in Kent, Mortimer Society were seeking a way to manage varied shift patterns for over 150 staff, over 24-hour periods, 365 days a year. With the support of Kelio's Time and Attendance system, they have a more accurate recording of staff working hours, annual leave, absence management and payroll preparation.

Having previously wasted a great deal of time and incurring many mistakes by manually entering staff hours, Mortimer Society have found Kelio's system to be hugely effective. Melanie reports, "Staff timesheets and payroll were all managed manually and therefore open to error. On installation of Kelio's system, we immediately recognised how inaccurate the manual recording of staff working hours was and we could see the financial benefits straight away."

Kelio's Time and Attendance system manages all types of schedules, including weekly, annual, posted or cyclical and varied shift types, making it an ideal choice for the care home. After briefly trying a different brand, Mortimer Society were pleased to discover Kelio's "user friendly administration functions" and an "ease with managing varied shift patterns". This has been particularly useful in supporting accurate recording of annual leave and staff sickness. Melanie also comments, "it is easy to use and provides us with the information we need in order to prepare our monthly payroll." As well as the ease of use, "Kelio has been hugely effective financially."
